# Main Table Of Contents

## General Part

- ➡ **Introduction** (General Information, Structure, Concept)
- ➡ **Connecting external Hardware** (Inputs/Outputs, MIDI Wiring, Optional I/O, Digital and Analog Interconnections)
- ➡ **The Live Bar** (Structure, Menus, Configuration Area, Modules, Slots, Screen Sets, Routing, Signal Flow)
- ➡ **Configuration Dialogs and Operating Techniques** (Browser, Menus, Routing Window, Modules, Controls, Settings)
- ➡ **Integrating Recording Software** (Recording/Playing Audio, MIDI, Configuration, tripleDat, Cubase, Logic Audio, Sonar)
- ➡ **XTC Mode**

## Reference Part

- ➡ **MIDI Modules** (MIDI Merger, Key Splitter, Sequencer Remote, MIDI Monitor, MIDI Filter, MTCtoClk, Notepad)
- ➡ **Hardware I/Os and Driver Interfaces** (S/P-DIF, AES/EBU, ADAT, SyncPlate, ASIO, Wave, Interleaved...)
- ➡ **Mixer / Mixer Tools**
- ➡ **Synthesizer**
- ➡ **Effects / Studio Tools**
- ➡ **Sampling**
- ➡ **V DAT** (Virtual 8-Track Recorder), ➡ **VRC-128** and ➡ **VRC-S** (Virtual Remote Control)
- ➡ **Appendix** (Driver Dialog, Key Commands, Mouse Cursors, Example Projects, Registration Dialog, Hotline)

## **Important technical notes:**

**The CreamWare DSP card is hereby certified to conform to the requirements set forth in the guidelines for electromagnetic acceptability (89/336/EWG).**

**To guarantee that the CreamWare DSP card performs properly and within prescribed electromagnetic emission limits, the card should be operated only within a fully enclosed metal housing.**

**To avoid potential damage to sound equipment connected to the CreamWare DSP card outputs, it is recommended that this equipment be turned on or its volume turned up only *after* the software has been started, as startup transients on the CreamWare DSP card outputs are possible during startup of both the computer and the software.**

SCOPE Fusion Platform, SCOPE /SP, Pulsar, PowerPulsar, Pulsar XTC, Luna II, PowerSampler II are manufactured by CreamWare GmbH, Siegburg, Germany.

This product (and the associated documentation) is governed by the CreamWare Datentechnik GmbH's General Conditions and Terms of Delivery and Payment.

# Key Assignment and Inscription

Please note below a few differences in the key assignments and inscriptions between Mac and PC keyboards. If at any point in the manual references specific to the PC keyboard are made, the following Mac equivalents should be used.

Common global cut, copy and paste functions:

**'Ctrl' + C** (copy) becomes **'Apple' key + C**  
**'Ctrl' + X** (cut) becomes **'Apple' key + X**  
**'Ctrl' + V** (paste) becomes **'Apple' key + V**  
**'Ctrl' + D** (duplicate) becomes **'Apple' key + D**

**'Delete' or 'Del'** becomes **'Apple' key + 'Backspace' key**

The terms **'Return'** and **'Enter'** are interchangeable. They refer to the same key.

The **'Page Up'** and **'Page Down'** keys are functionally identical on both keyboards. Likewise, the **'arrow'** keys (up, down, left and right arrows) behave identically. The PC's **right mouse button** function is translated to the combination **'Ctrl' + mouse button** on the Mac.

# Using The Manual

**Various ways to get around in the Adobe Acrobat Reader documentation:**

- **Browsing**
- **Toolbar buttons**
- **Bookmarks**

The hot tip: **SCOPE Fusion Platform Manual.pdf** is your gateway into the documentation. It provides a **main table of contents** in the form of a single page of clickable links which lead directly to individual chapters.

Each chapter begins with its own **contents page**, on which the names in the chapter / section list serve as a set of clickable bookmarks. This gives you the overview of a chapter at a single glance and is the quick way to jump to a specific chapter or section. Each table of contents page also includes a direct link back to the main table of contents.

The **toolbar buttons** (above right) provide the means for moving around within a chapter. Use them to leaf page-by-page, to jump back directly to the first page of a chapter (the chapter table of contents), or to "rewind" (and fast-forward) over the sequence of pages you've most recently viewed – including pages in other chapters.
