

# TightnWide

Bass Mono and Stereo Widening Tool

Scope plugin designed to manage the stereo spectrum of a channel, stem or final mix.

TightnWide Features:

- Solo Bass or Stereo sections to aid with setup
- Switch 'Hard Mono' and 'Bass Panning' options ('Hard Mono' via Mono Amp without panning controls)
- Bass width panning
- Link EQ frequency to Cross Over frequency
- Compressor switchable 'Bass Only' or 'Full Stereo Mix'
- Adjust Mid/Side of Stereo Section (not final mix)
- Adjust Stereo Section width - Delay enhancement (15 – 30 ms)
